GEOTRENDS

2nd International Conference on Geoheritage & Geotourism

20–23rd September 2017
Wrocław/Poland

Organisers:

University of Wrocław, Institute of Geography and Regional Development

Polish Academy of Sciences

The Committee for Quaternary Research, Polish Academy of Sciences

The Committee for Earth Sciences,
Polish Academy of Sciences, Wrocław Branch

Polish Geographical Society, Wrocław Branch

Lower Silesian Tourist Organization

Loess Focus Group INQUA

Scope of the Conference – Aims, Goals:

1. Geoheritage and the region – adversary or partners?
2. To strengthen the position of geoheritage in the local and regional planning of the sustainable development.
3. To integrate both sides of the discussion: scientific and professional in order to develop a favourable climate for the implementation of knowledge to the practical tourist activity.
4. To expand the idea of sustainable development for the conservation of the geoheritage.
5. To create the platform of the permanent discussion for all the entities engaged in the process of regional sustainable development.
6. To continue the discussion about the core content of geotourism.

Conference Themes:

1. The role of geoheritage in the complex tourist product in the local and regional scale.
2. Geotourism and promotion of the region.
3. Sustainable development of geotourism and local economy.
4. Geo resources – a core or complementary value for tourism development.
5. Geotourism and policy of the local authorities.
6. Tourist infrastructure in service of geoheritage.
7. Geotourism as an alternative to mass tourism phenomenon?
8. Geotourist – active or passive participant?
9. Geotourism and geoproducts.
10. Geotourism and its development perspectives.

Benefits of Attending:

- Abstracts and articles will be peer-reviewed by members of the International Scientific Committee and other colleagues.
- Abstracts will be published in Abstract Book and distributed to all participants and relevant organizations.
- Selected articles will be published in an international scientific journal "Open Geosciences" (IF 2016 = 0.475, manuscripts only in English).
- All other articles after review will be published in a monograph (5 points according to Polish Ministry of Science and Higher Education, manuscripts both in English and Polish).

Official language of the conference is English.
